Description

The Enkhuizen 640 was designed in-house. The sailing characteristics are comparable to those of the much-praised tenders: extremely stable, fast sailing and extremely easy to manoeuvre. Due to its sophisticated underwater hull, the Enkhuizen 640 needs relatively little engine power to develop a respectable speed. At high speed, the sloop remains comfortable and steady on course. Due to its shallow draft, slender shapes and excellent manoeuvrability, the 640 can be piloted through even the smallest ditches.

Of course, what applies to every Enkhuizen sloop applies to the 640: safe and very solidly built with a high level of finish. Available with an economical diesel engine, a whisper-quiet electric motor or with a combination of both.

Library images shown, boats built to order.

Information & Features

2026 Vetus (Engine 1)

Engine Type:	Inboard	Power:	16 hp
Fuel Type:	Diesel		
Drive Type:	Shaft Drive		

Dimensions

LOA:	21 ft	Max Draft:	1 ft 10 in
Beam:	7 ft 10 in		
Max Bridge Clearance:	3 ft 7 in		

Seating

Seating Capacity: **8**

Other

Warranty:	5 Years
Designer:	Enkhuizensloep
Builder:	Enkhuizensloep

STANDARD EQUIPMENT

Dimensions

Length overall: 6.40 meters

Beam: 2.40 meters

Draft: 0.55 meters

Air draft: approx. 1.10 meters

Weight: approx. 1200 kg

CE category: C

Maximum number of persons: 8

Propulsion

Standard version with VETUS 16hp 2-cylinder diesel engine

Environmentally friendly, water-lubricated propeller shaft system

Water separator and coarse filter

60-liter fuel tank with fuel shut-off valve
